218.		THE INFORMATION DISCLOSED IS GIVEN TO THE BEST OF SELLER'S KNOWLEDGE.
219.	Pro	perty located at 16912 Cottage Grove Avenue Minnetonka MN 55391
		FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT ("FIRPTA"): Section 1445 of the Internal Revenue Cod provides that a transferee ("Buyer") of a United States real property interest must be notified in writing and muswithhold tax if the transferor ("Seller") is a foreign person and no exceptions from FIRPTA withholding apply.
223.		Seller represents that Seller IS IS NOT a foreign person (i.e., a non-resident alien individual, foreign corporation
224. 225.		foreign partnership, foreign trust, or foreign estate) for purposes of income taxation. This representation sha survive the closing of any transaction involving the Property described here.
226. 227. 228. 229. 230. 231.		NOTE: If the above answer is "IS," Buyer may be subject to income tax withholding in connection with the transaction (unless the transaction is covered by an applicable exception to FIRPTA withholding). I non-exempt transactions, Buyer may be liable for the tax if Buyer fails to withhold. If the above answer is "IS NOT," Buyer may wish to obtain specific documentation from Seller ensuring Buyer is exempt from the withholding requirements as prescribed under Section 1445 of the International Code.
232. 233. 234. 235.		Due to the complexity and potential risks of falling to comply with FIRPTA, including Buyer's responsibilit for withholding the applicable tax, Buyer and Seller should seek appropriate legal and tax advice regarding FIRPTA compliance, as the respective licensees representing or assisting either party will be unable to assure either party whether the transaction is exempt from the FIRPTA withholding requirements.
236. 237. 238. 239. 240.	Н.	METHAMPHETAMINE PRODUCTION DISCLOSURE: (A Methamphetamine Production Disclosure is required by MN Statute 152.0275, Subd. 2 (m).) Seller is not aware of any methamphetamine production that has occurred on the Property. Seller is aware that methamphetamine production has occurred on the Property. (See Disclosure Statement: Methamphetamine Production.)
241. 242. 243. 244. 245.	1.	NOTICE REGARDING AIRPORT ZONING REGULATIONS: The Property may be in or near an airport safet zone with zoning regulations adopted by the governing body that may affect the Property. Such zoning regulation are filed with the county recorder in each county where the zoned area is located. If you would like to determinif such zoning regulations affect the Property, you should contact the county recorder where the zoned area is located.
246. 247. 248.	J.	NOTICE REGARDING CARBON MONOXIDE DETECTORS: MN Statute 299F.51 requires Carbon Monoxide Detectors to be located within ten (10) feet from all sleeping rooms. Carbon Monoxide Detectors may or may not be personal property and may or may not be included in the sale of the home.
249.	K.	CEMETERY ACT: The following questions are to be answered to the best of Seller's knowledge.
250. 251. 252.		MN Statute 307.08 prohibits any damage or illegal molestation of human remains, burials or cemeteries. A person who intentionally, willfully and knowingly destroys, mutilates, injures, disturbs, or removes human skeleta remains or human burial grounds is guilty of a felony.
253.		Are you aware of any human remains, burials, or cemeteries located on the Property?
254.255.256.257.		If "Yes," please explain:

313. 314.	N.	NOTICES/OTHER DEFECTS/MATERIAL FACTS: The following questions are to be answered to the best of Seller's knowledge.
315.		Notices: Seller HAS HAS NOT received a notice regarding any proposed improvement project from any
316.		assessing authorities, the costs of which project may be assessed against the Property. If "HAS," please attach
317.		and/or explain:
318.		
319. 320.		Other Defects/Material Facts: Are there any other material facts that could adversely and significantly affect an ordinary buyer's use or enjoyment of the Property or any intended use of the Property?
321.		If "Yes," explain:
322.		
323. 324. 325.	Ο.	WATER INTRUSION AND MOLD GROWTH: Studies have shown that various forms of water intrusion affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture leaving the home.
326. 327. 328. 329. 330. 331. 332. 333. 334. 335. 336. 337. 338. 339. 340.		Examples of exterior moisture sources may be: improper flashing around windows and doors, improper grading, flooding, roof leaks. Examples of interior moisture sources may be: plumbing leaks, condensation (caused by indoor humidity that is too high or surfaces that are too cold), overflow from tubs, sinks, or toilets, firewood stored indoors, humidifier use, inadequate venting of kitchen and bath humidity, improper venting of clothes dryer exhaust outdoors (including electrical dryers), line-drying laundry indoors, houseplants—watering them can generate large amounts of moisture. In addition to the possible structural damage water intrusion may do to the Property, water intrusion may also result in the grouth of mold, mildow, and other fundi. Mold growth may also cause structural damage to the Property.
342. 343.		in the growth of mold, mildew, and other fungi. Mold growth may also cause structural damage to the Property. Therefore, it is very important to detect and remediate water intrusion problems.
344. 345. 346. 347.		Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health problems, particularly in some immunocompromised individuals and people who have asthma or allergies to mold.
348. 349. 350. 351. 352.		To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the Property inspected for moisture problems before entering into a purchase agreement or as a condition of your purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the Property.
353. 354. 355. 356. 357.	P.	NOTICE REGARDING PREDATORY OFFENDER INFORMATION: Information regarding the predatory offender registry and persons registered with the predatory offender registry under MN Statue 243.166 may be obtained by contacting the local law enforcement offices in the community where the property is located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of Corrections web site at www.corr.state.mn.us.

Radon in Real Estate Transactions

All Minnesota homes can have dangerous levels of radon gas. Radon is a colorless, odorless and tasteless radioactive gas that can seep into homes from the soil. When inhaled, it can damage the lungs. Long-term exposure to radon can lead to lung cancer. About 21,000 lung cancer deaths each year in the United States are caused by radon.

The only way to know how much radon gas has entered the home is to conduct a radon test. MDH estimates 2 in 5 homes exceed the 4.0 pCi/L action level. Whether a home is old or new, any home can have high levels of radon.

The purpose of this publication is to educate and inform potential home buyers of the risks of radon exposure, and how to test for and reduce radon as part of real estate transactions.

Disclosure Requirements

Effective January 1, 2014, the Minnesota Radon Awareness Act requires specific disclosure and education be provided to potential home buyers during residential real estate transactions in Minnesota. Before signing a purchase agreement to sell or transfer residential real property, the seller shall provide this publication and shall disclose in writing to the buyer:

- 1. whether a radon test or tests have occurred on the property;
- the most current records and reports pertaining to radon concentrations within the dwelling;
- 3. a description of any radon levels, mitigation, or remediation;
- 4. information on the radon mitigation system, if a system was installed; and
- 5. a radon warning statement.

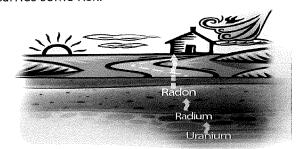

Radon Facts

How dangerous is radon? Radon is the number one cause of lung cancer in non-smokers, and the second leading cause overall. Your risk for lung cancer increases with higher levels of radon, prolonged exposure, and whether or not you are a current smoker or former smoker.

Where is your greatest exposure to radon? For most Minnesotans, your greatest exposure is at home where radon can concentrate indoors.

What is the recommended action based on my results? If the average radon in the home is at or above 4.0 pCi/L, the home's radon level should be reduced. Also, consider mitigating if radon levels are between 2.0 pCi/L and 3.9 pCi/L. Any amount of radon, even below the recommended action level, carries some risk.

Radon Testing

Any test lasting less than three months requires closed-house conditions. Keep all windows and doors closed, except for normal entry and exit.

Before testing: Begin closed-house conditions at least 12 hours before the start of the radon test.

During testing: Maintain closed-house conditions during the entire duration of the short-term test. Operate home heating or cooling systems normally during the test. Test for at least 48 hours.

Where should the test be conducted? Any radon test conducted for a real estate transaction needs to be placed in the lowest livable area of the home suitable for occupancy. This is typically in the basement, whether finished or unfinished.

Place the test kit:

- twenty inches to six feet above the floor
- · at least three feet from exterior walls
- · four inches away from other objects
- in a location where it won't be disturbed
- not in enclosed areas or areas of high heat or humidity

How are radon tests conducted in real estate transactions? There are special protocols for radon testing. The two most common ways to test are either using a calibrated continuous radon monitor (CRM) or two-short term test kits used at the same time. The short-term test kits are placed 4 inches apart and the results are averaged.

Continuous Radon Monitor (CRM)

Fastest

Second Fastest

All radon tests should be conducted by a certified professional. This ensures the test was conducted properly, in the correct location, and under appropriate building conditions. A list of these radon measurement professionals can be found at MDH's Radon website. If the seller previously conducted testing in a property at or above 4 pCi/L, the home should be mitigated.

Radon Mitigation

When elevated levels of radon are found, they can be easily reduced by a certified radon mitigation professional.

Radon mitigation is the process used to reduce radon concentrations in buildings. This is done by drawing soil gas from under the house and venting it above the roof. A quality mitigation system should reduce levels to below 4.0 pCi/L, if not lower.

After a radon mitigation system is installed perform an independent short-term test to ensure the reduction system is effective. Operate the radon system during the entire test. This test will confirm low levels in the home. Be sure to retest the house every two years to confirm continued radon reduction.

Radon Warning Statement

"The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling".

6. 7. 8. 9. 10. 11. 12. 13. 14. 15. 16.	NOTICE: This Disclosure Statement satisfies the disclosure requirements of MN Statutes 513.52 through 513.60 Under Minnesota law, sellers of residential property, with limited exceptions listed on page nine (9), are obligated to disclose to prospective buyers all material facts of which Seller is aware that could adversely and significantly affect an ordinary buyer's use or enjoyment of the property or any intended use of the property of which Seller is aware MN Statute 513.58 requires Seller to notify buyer in writing as soon as reasonably possible, but in any event before closing, if Seller learns that Seller's disclosure was inaccurate. Seller is obligated to continue to notify Buyer, in writing of any facts disclosed here (new or changed) of which Seller is aware that could adversely and significantly affect the Buyer's use or enjoyment of the property or any intended use of the property that occur up to the time of closing Seller has disclosure alternatives allowed by MN Statutes. See Disclosure Statement: Seller's Disclosure Alternatives form for further information regarding disclosure alternatives. This disclosure is not a warranty or a guarantee of any kind by Seller or licensee(s) representing or assisting any party in the transaction and is not a substitute for any inspections or warranties the party(ies) may wish to obtain.								
18.	For purposes of the seller disclosure requirements of MN Statutes 513.52 through 513.60:								
19. 20. 21.	"Residential real property" or "residential real estate" means property occupied as, or intended to be occupied as, a single-family residence, including a unit in a common interest community as defined in MN Statute 515B.1-103, clause (10), regardless of whether the unit is in a common interest community not subject to chapter 515B.								
22. 23. 24.	The seller disclosure requirements of MN Statutes 513.52 through 513.60 apply to the transfer of any interest in residential real estate, whether by sale, exchange, deed, contract for deed, lease with an option to purchase, or any other option.								
25. 26. 27. 28.	INSTRUCTIONSTO BUYER: Buyers are encouraged to thoroughly inspect the property personally or have it inspected by a third party, and to inquire about any specific areas of concern. NOTE: If Seller answers NO to any of the questions listed below, it does not necessarily mean that it does not exist on the property, did not occur, or does not apply. NO may mean that Seller is unaware.								
29. 30. 31. 32.	INSTRUCTIONS TO SELLER: (1) Complete this form yourself. (2) Consult prior disclosure statement(s) and/or inspection report(s) when completing this form. (3) Describe conditions affecting the property to the best of your knowledge. (4) Attach additional pages, with your signature, if additional space is required. (5) Answer all questions (6) If any items do not apply, write "NA" (not applicable).

274. 275. 276.	(12) Are you aware if there are currently, or have previously been, any orders issued on the property by any governmental authority ordering the remediation of a public health nulsance on the property?
277.	If answer above is "Yes," Seller certifies that all orders HAVE HAVE NOT been vacated.
278. 279.	(13) Please provide clarification or further explanation for all applicable "Yes" responses in Section L.
280.	
281.	M. RADON DISCLOSURE: (The following Seller disclosure satisfies MN Statute 144.496.)
282. 283. 284. 285.	RADON WARNING STATEMENT: The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.
286. 287. 288. 289. 290.	Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling.
291. 292. 293.	RADON IN REAL ESTATE: By signing this Statement, Buyer hereby acknowledges receipt of the Minnesota Department of Health's publication entitled <i>Radon in Real Estate Transactions</i> , which is attached hereto and can be found at www.health.state.mn.us/divs/eh/indoorair/radon/rnrealestateweb.pdf.
294. 295. 296. 297. 298.	A seller who fails to disclose the information required under MN Statute 144.496, and is aware of material facts pertaining to radon concontrations in the property, is liable to the Buyer. A buyer who is injured by a violation of MN Statute 144.496 may bring a civil action and recover damages and receive other equitable relief as determined by the court. Any such action must be commenced within two years after the date on which the buyer closed the purchase or transfer of the real property.
299. 300.	SELLER'S REPRESENTATIONS: The following are representations made by Seller to the extent of Seller's actual knowledge.
301,	(a) Radon test(s) HAVE HAVE NOT occurred on the property.
302. 303.	(b) Describe any known radon concentrations, mitigation, or remediation. NOTE: Seller shall attach the most current records and reports pertaining to radon concentration within the dwelling:
304.	radon texted upon purchase in 2011 - mitigation system
305. 306.	(c) There ☑IS ☐ IS NOT a radon mitigation system currently installed on the property.
307. 308.	If "IS," Seller shall disclose, if known, information regarding the radon mitigation system, including system description and documentation.
309.	
310.	
311.	EXCEPTIONS: See Section R for exceptions to this disclosure requirement.

	THE INFORMATION DISCLOSED IS GIVEN TO THE BEST OF SELLER'S KNOWLEDGE.
Pro	operty located at 16912 Cuttage Grove Avenue
N.	NOTICES/OTHER DEFECTS/MATERIAL FACTS: The following questions are to be answered to the best of Seller's knowledge.
	Notices: Seller HAS HAS NOT received a notice regarding any proposed improvement project from any
	assessing authorities, the costs of which project may be assessed against the property. If "HAS," please attach
	and/or explain :
	Other Defects/Material Facts: Are there any other material facts that could adversely and significantly affect an ordinary buyer's use or enjoyment of the property or any intended use of the property?
	If "Yes," explain:
O.	WATER INTRUSION AND MOLD GROWTH: Studies have shown that various forms of water intrusion affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture leaving the home.
	Examples of exterior moisture sources may be: • improper flashing around windows and doors, • improper grading, • flooding, • roof leaks. Examples of interior moisture sources may be: • plumbing leaks, • condensation (caused by indoor humidity that is too high or surfaces that are too cold), • overflow from tubs, sinks, or toilets, • firewood stored indoors, • humidifier use, • inadequate venting of kitchen and bath humidity, • improper venting of clothes dryer exhaust outdoors (including electrical dryers), • line-drying laundry indoors, • houseplants—watering them can generate large amounts of moisture.
	In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result in the growth of mold, mildew, and other fungi. Mold growth may also cause structural damage to the property. Therefore, it is very important to detect and remediate water intrusion problems.
	Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health problems, particularly in some immunocompromised individuals and people who have asthma or allergies to mold.
	To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the property inspected for moisture problems before entering into a purchase agreement or as a condition of your purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the property.
i j	NOTICE REGARDING PREDATORY OFFENDER INFORMATION: Information regarding the predatory offender registry and persons registered with the predatory offender registry under MN Statue 243.166 may be obtained by contacting the local law enforcement offices in the community where the property is located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of Corrections web site at www.corr.state.mn.us.
