

Dear buyer,

Crane Island is rich in history and life. The McKendry cabin's ties are strong with Scott's great grandfather surveying the Island in the early 1900s, the Association beginning in 1906 and his great grandfather, Merton Samuel Amy, building the cabin in 1914. Five generations of one family ownership is historic for the Island and for us and now we are empty nesters and I'm back in school to move on to my next adventure. The Island has offered us a wealth of opportunities with family and friends and has been a truly wonderful experience. It is to be cherished and enjoyed.

Sincerely,

Sharon McKendry
