

**DISCLOSURE STATEMENT:
SELLER'S DISCLOSURE ALTERNATIVES**
This form approved by the Minnesota Association of REALTORS®, which disclaims any liability arising out of use or misuse of this form.
© 2016 Minnesota Association of REALTORS®, Edina, MN

1. Date May 22-18
2. Page 1 of 2 pages: RECORDS AND
3. REPORTS, IF ANY, ARE ATTACHED AND MADE A
4. PART OF THIS DISCLOSURE

5. Property located at 4180 Lakeridge Road,
6. City of Chanhassen, County of Carver, State of Minnesota.

7. **NOTICE:** Sellers of residential property, with limited exceptions, are obligated to satisfy the requirements of MN Statutes
8. 513.52 through 513.60. **To comply with the statute, Seller must provide either a written disclosure to the**
9. **prospective Buyer (see Disclosure Statement: Seller's Property Disclosure Statement) or satisfy one of the**
10. **following two options.** Disclosures made here, if any, are not a warranty or guarantee of any kind by Seller or
11. licensee(s) representing or assisting any party in this transaction and are not a substitute for any inspections or
12. warranties the party(ies) may wish to obtain.

13. **(Select one option only.)**

14. 1) **QUALIFIED THIRD-PARTY INSPECTION:** Seller shall provide to prospective Buyer a written report that
15. discloses material information relating to the real property that has been prepared by a qualified third party.
16. "Qualified third party" means a federal, state, or local governmental agency, or any person whom Seller or
17. prospective Buyer reasonably believes has the expertise necessary to meet the industry standards of practice
18. for the type of inspection or investigation that has been conducted by the third party in order to prepare the
19. written report.

20. **Seller shall disclose to prospective Buyer material facts known by Seller that contradict any information**
21. **that is included in a written report, or material facts known by Seller that are not included in the**
22. **report.**

23. The inspection report was prepared by _____
24. _____
25. and dated _____, 20_____.

26. Seller discloses to Buyer the following material facts known by Seller that contradict any information included
27. in the above referenced inspection report.

28. _____
29. _____
30. _____

31. Seller discloses to Buyer the following material facts known by Seller that are not included in the above
32. referenced inspection report.

33. _____
34. _____
35. _____

36. 2) **WAIVER:** The written disclosure required may be waived if Seller and prospective Buyer agree in writing. Seller
37. and Buyer hereby waive the written disclosure required under MN Statutes 513.52 through 513.60.

38. **NOTE:** If both Seller and prospective Buyer agree, in writing, to waive the written disclosure required under
39. MN Statutes 513.52 through 513.60, Seller is not obligated to disclose ANY material facts of which Seller
40. is aware that could adversely and significantly affect the Buyer's use or enjoyment of the property or any
41. intended use of the property, other than those disclosure requirements created by any other law. Seller is
42. not obligated to update Buyer on any changes made to material facts of which Seller is aware that could
43. adversely and significantly affect the Buyer's use or enjoyment of the property or any intended use of the
44. property that occur, other than those disclosure requirements created by any other law.

45. **Waiver of the disclosure required under MN Statutes 513.52 through 513.60 does not waive, limit, or**
46. **abridge any obligation for Seller disclosure created by any other law.**

48. Property located at 4180 Lakeridge Road Chanhausen MN 55331

49. **OTHER REQUIRED DISCLOSURES:**

50. **NOTE:** In addition to electing one of the above alternatives to the material fact disclosure, Minnesota law also
51. requires sellers to provide other disclosures to prospective buyers, such as those disclosures listed below.
52. Additionally, there may be other required disclosures by federal, state, local, or other governmental entities
53. that are not listed below.

54. **A. SUBSURFACE SEWAGE TREATMENT SYSTEM DISCLOSURE:** (A subsurface sewage treatment system
55. disclosure is required by MN Statute 115.55.) (Check appropriate box.)

56. Seller certifies that Seller **DOES** **DOES NOT** know of a subsurface sewage treatment system on or serving
57. the above-described real property. (If answer is **DOES**, and the system does not require a state permit, see
58. *Disclosure Statement: Subsurface Sewage Treatment System.*)

59. There is a subsurface sewage treatment system on or serving the above-described real property.
60. (See *Disclosure Statement: Subsurface Sewage Treatment System.*)

61. There is an abandoned subsurface sewage treatment system on the above-described real property.
62. (See *Disclosure Statement: Subsurface Sewage Treatment System.*)

63. **B. PRIVATE WELL DISCLOSURE:** (A well disclosure and Certificate are required by MN Statute 1031.235.)
64. (Check appropriate box.)

65. Seller certifies that Seller does not know of any wells on the above-described real property.

66. Seller certifies there are one or more wells located on the above-described real property.
67. (See *Disclosure Statement: Well.*)

68. Are there any wells serving the above-described property that are not located on the property? Yes No

69. To your knowledge, is the property in a Special Well Construction Area? Yes No

70. Comments: _____

71. _____

72. **C. VALUATION EXCLUSION DISCLOSURE:** (Required by MN Statute 273.11, Subd. 18)

73. There **IS** **IS NOT** an exclusion from market value for home improvements on this property. Any valuation
74. exclusion shall terminate upon sale of the property, and the property's estimated market value for property tax purposes
75. shall increase. If a valuation exclusion exists, Buyers are encouraged to look into the resulting tax
76. consequences.

77. Additional comments: _____

78. _____

79. **D. FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT ("FIRPTA"):** Section 1445 of the Internal Revenue Code
80. provides that a transferee ("Buyer") of a United States real property interest must be notified in writing and must
81. withhold tax if the transferor ("Seller") is a foreign person and no exceptions from FIRPTA withholding apply.

82. Seller represents that Seller **IS** **IS NOT** a foreign person (i.e., a non-resident alien individual, foreign corporation,
83. foreign partnership, foreign trust, or foreign estate) for purposes of income taxation. This representation shall
84. survive the closing of any transaction involving the property described here.

85. **NOTE:** If the above answer is "**IS**," Buyer may be subject to income tax withholding in connection with the
86. transaction (unless the transaction is covered by an applicable exception to FIRPTA withholding). In
87. non-exempt transactions, Buyer may be liable for the tax if Buyer fails to withhold.

88. If the above answer is "**IS NOT**," Buyer may wish to obtain specific documentation from Seller ensuring
89. Buyer is exempt from the withholding requirements as prescribed under Section 1445 of the Internal
90. Revenue Code.

91. Due to the complexity and potential risks of failing to comply with FIRPTA, including Buyer's responsibility
92. for withholding the applicable tax, Buyer and Seller should **seek appropriate legal and tax advice regarding**
93. **FIRPTA compliance, as the respective licensees representing or assisting either party will be unable to**
94. **assure either party whether the transaction is exempt from the FIRPTA withholding requirements.**

96. Property located at 4180 Lakeridge Road Chanhassen MN 55331

97. E. METHAMPHETAMINE PRODUCTION DISCLOSURE:

98. (A methamphetamine production disclosure is required by MN Statute 152.0275, Subd. 2 (m).)

99. [X] Seller is not aware of any methamphetamine production that has occurred on the property.

100. [] Seller is aware that methamphetamine production has occurred on the property.

101. (See Disclosure Statement: Methamphetamine Production.)

102. F. RADON DISCLOSURE:

103. (The following Seller disclosure satisfies MN Statute 144.496.)

104. RADON WARNING STATEMENT: The Minnesota Department of Health strongly recommends that ALL
105. homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having
106. the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily
107. be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

108. Every buyer of any interest in residential real property is notified that the property may present exposure to
109. dangerous levels of indoor radon gas that may place occupants at risk of developing radon-induced lung cancer.
110. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading
111. cause overall. The seller of any interest in residential real property is required to provide the buyer with any
112. information on radon test results of the dwelling.

113. RADON IN REAL ESTATE: By signing this Statement, Buyer hereby acknowledges receipt of the Minnesota
114. Department of Health's publication entitled Radon in Real Estate Transactions, which is attached hereto and
115. can be found at www.health.state.mn.us/divs/eh/indoorair/radon/rnrealestateweb.pdf.

116. A seller who fails to disclose the information required under MN Statute 144.496, and is aware of material facts
117. pertaining to radon concentrations in the property, is liable to the Buyer. A buyer who is injured by a violation of MN
118. Statute 144.496 may bring a civil action and recover damages and receive other equitable relief as determined by
119. the court. Any such action must be commenced within two years after the date on which the buyer closed the
120. purchase or transfer of the real property.

121. SELLER'S REPRESENTATIONS: The following are representations made by Seller to the extent of Seller's actual
122. knowledge.

123. (a) Radon test(s) [] HAVE [] HAVE NOT occurred on the property.
(Choose one.)

124. (b) Describe any known radon concentrations, mitigation, or remediation. NOTE: Seller shall attach the most
125. current records and reports pertaining to radon concentration within the dwelling:

126. _____
127. _____
128. _____

129. (c) There [X] IS [] IS NOT a radon mitigation system currently installed on the property.
(Choose one.)

130. If "IS," Seller shall disclose, if known, information regarding the radon mitigation system, including system
131. description and documentation.

132. Was installed 6/26/13
133. _____
134. _____

135. G. NOTICE REGARDING AIRPORT ZONING REGULATIONS: The property may be in or near an airport safety zone
136. with zoning regulations adopted by the governing body that may affect the property. Such zoning regulations are
137. filed with the county recorder in each county where the zoned area is located. If you would like to determine if such
138. zoning regulations affect the property, you should contact the county recorder where the zoned area is located.

140. Property located at 4180 Lakeridge Road Chanhassen MN 55331
141. **H. NOTICE REGARDING CARBON MONOXIDE DETECTORS:**
142. MN Statute 299F.51 requires Carbon Monoxide Detectors to be located within ten (10) feet from all sleeping
143. rooms. Carbon Monoxide Detectors may or may not be personal property and may or may not be included in the
144. sale of the home.
145. **I. WATER INTRUSION AND MOLD GROWTH:** Studies have shown that various forms of water intrusion affect many
146. homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture leaving the
147. home.
148. Examples of exterior moisture sources may be
149. • improper flashing around windows and doors,
150. • improper grading,
151. • flooding,
152. • roof leaks.
153. Examples of interior moisture sources may be
154. • plumbing leaks,
155. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
156. • overflow from tubs, sinks, or toilets,
157. • firewood stored indoors,
158. • humidifier use,
159. • inadequate venting of kitchen and bath humidity,
160. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
161. • line-drying laundry indoors,
162. • houseplants—watering them can generate large amounts of moisture.
163. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result
164. in the growth of mold, mildew, and other fungi. Mold growth may also cause structural damage to the property.
165. Therefore, it is very important to detect and remediate water intrusion problems.
166. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to humans.
167. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health problems,
168. particularly in some immunocompromised individuals and people who have asthma or allergies to mold.
169. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
170. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having
171. the property inspected for moisture problems before entering into a purchase agreement or as a condition of your
172. purchase agreement. Such an analysis is particularly advisable if you observe staining or any musty odors on the
173. property.
174. **J. NOTICE REGARDING PREDATORY OFFENDER INFORMATION:** Information regarding the predatory
175. offender registry and persons registered with the predatory offender registry under MN Statute 243.166
176. may be obtained by contacting the local law enforcement offices in the community where the property is
177. located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of Corrections
178. web site at www.corr.state.mn.us.

180. Property located at 4180 Lakeridge Road Chanhassen MN 55331

181. **K. SELLER'S STATEMENT:**

182. *(To be signed at time of listing.)*

183. Seller(s) hereby authorizes any licensee(s) representing or assisting any party(ies) in this transaction to provide
184. a copy of this Disclosure Statement to any person or entity in connection with any actual or anticipated sale of the
185. property. A seller may provide this Disclosure Statement to a real estate licensee representing or assisting a
186. prospective buyer. The Disclosure Statement provided to the real estate licensee representing or assisting a
187. prospective buyer is considered to have been provided to the prospective buyer. If this Disclosure Statement is
188. provided to the real estate licensee representing or assisting the prospective buyer, the real estate licensee must
189. provide a copy to the prospective buyer.

190. **QUALIFIED THIRD-PARTY INSPECTION:** If Seller has made a disclosure under the Qualified Third-Party
191. Inspection, Seller is obligated to disclose to Buyer in writing of any new or changed facts of which Seller is aware
192. that could adversely and significantly affect the Buyer's use or enjoyment of the property or any intended use of
193. the property that occur up to the time of closing. To disclose new or changed facts, please use the *Amendment to*
194. *Disclosure Statement* form.

195. **WAIVER:** If Seller and Buyer agree to waive the seller disclosure requirement, Seller is NOT obligated to disclose
196. and will NOT disclose any new or changed information regarding facts.

197. **OTHER REQUIRED DISCLOSURES (Sections A-F):** Whether Seller has elected a Qualified-Third Party Inspection
198. or Waiver, Seller is obligated to notify Buyer, in writing, of any new or changed facts regarding Other Required
199. Disclosures up to the time of closing. To disclose new or changed facts, please use the *Amendment to Seller's*
200. *Disclosure* form.

201. *Peter G Mangan 5/22/16*
(Seller) **PETER G MANGAN** (Date) (Seller) (Date)

202. **L. BUYER'S ACKNOWLEDGEMENT:**

203. *(To be signed at time of purchase agreement.)*

204. I/We, the Buyer(s) of the property, acknowledge receipt of this *Seller's Disclosure Alternatives* form and agree to
205. the seller's disclosure option selected in this form. I/We further agree that no representations regarding facts have
206. been made, other than those made in this form. This Disclosure Statement is not a warranty or a guarantee of
207. any kind by Seller or licensee representing or assisting any party in the transaction and is not a suitable substitute
208. for any inspections or warranties the party(ies) may wish to obtain.

209. The information disclosed is given to the best of the Seller's knowledge.

210. _____
(Buyer) (Date) (Buyer) (Date)

211. **LISTING BROKER AND LICENSEES MAKE NO REPRESENTATIONS HERE AND ARE**
212. **NOT RESPONSIBLE FOR ANY CONDITIONS EXISTING ON THE PROPERTY.**

Radon in Real Estate Transactions

All Minnesota homes can have dangerous levels of radon gas. Radon is a colorless, odorless and tasteless **radioactive gas** that can seep into homes from the soil. When inhaled, it can damage the lungs. Long-term exposure to radon can lead to **lung cancer**. About 21,000 lung cancer deaths each year in the United States are caused by radon.

The only way to know how much radon gas has entered the home is to conduct a radon test. MDH estimates 2 in 5 homes exceed the 4.0 pCi/L action level. Whether a home is old or new, **any home can have high levels of radon**.

The purpose of this publication is to educate and inform potential home buyers of the risks of radon exposure, and how to test for and reduce radon as part of real estate transactions.

Disclosure Requirements

Effective January 1, 2014, the Minnesota Radon Awareness Act requires specific disclosure and education be provided to potential home buyers during residential real estate transactions in Minnesota. **Before signing a purchase agreement to sell or transfer residential real property**, the seller shall provide this publication and shall disclose in writing to the buyer:

1. whether a radon test or tests have occurred on the property;
2. the most current records and reports pertaining to radon concentrations within the dwelling;
3. a description of any radon levels, mitigation, or remediation;
4. information on the radon mitigation system, if a system was installed; and
5. a radon warning statement.

MDH Minnesota
Department of Health

INDOOR AIR UNIT

Radon Facts

How dangerous is radon? Radon is the number one cause of lung cancer in non-smokers, and the second leading cause overall. Your risk for lung cancer increases with higher levels of radon, prolonged exposure, and whether or not you are a current smoker or former smoker.

Where is your greatest exposure to radon? For most Minnesotans, your greatest exposure is at home where radon can concentrate indoors.

What is the recommended action based on my results? If the average radon in the home is at or above 4.0 pCi/L, the home's radon level should be reduced. Also, consider mitigating if radon levels are between 2.0 pCi/L and 3.9 pCi/L. Any amount of radon, even below the recommended action level, carries some risk.

InstantFORMS

Radon Testing

Any test lasting less than three months requires **closed-house conditions**. Keep all windows and doors closed, except for normal entry and exit.

Before testing: Begin closed-house conditions at least 12 hours before the start of the radon test.

During testing: Maintain closed-house conditions during the entire duration of the short-term test. Operate home heating or cooling systems normally during the test. Test for at least 48 hours.

Where should the test be conducted? Any radon test conducted for a real estate transaction needs to be placed in the lowest livable area of the home suitable for occupancy. This is typically in the basement, whether finished or unfinished.

Place the test kit:

- twenty inches to six feet above the floor
- at least three feet from exterior walls
- four inches away from other objects
- in a location where it won't be disturbed
- not in enclosed areas or areas of high heat or humidity

Radon Mitigation

When elevated levels of radon are found, they can be easily reduced by a certified radon mitigation professional.

Radon mitigation is the process used to reduce radon concentrations in buildings. This is done by drawing soil gas from under the house and venting it above the roof. A quality mitigation system should reduce levels to below 4.0 pCi/L, if not lower.

After a radon mitigation system is installed perform an independent short-term test to ensure the reduction system is effective. Operate the radon system during the entire test. This test will confirm low levels in the home. Be sure to retest the house every two years to confirm continued radon reduction.

Radon Warning Statement

"The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling".

How are radon tests conducted in real estate transactions? There are special protocols for radon testing. The two most common ways to test are either using a calibrated continuous radon monitor (CRM) or two-short term test kits used at the same time. The short-term test kits are placed 4 inches apart and the results are averaged.

Continuous Radon Monitor (CRM)

Fastest

Simultaneous Short-term Testing

Second Fastest

All radon tests should be conducted by a certified professional. This ensures the test was conducted properly, in the correct location, and under appropriate building conditions. A list of these radon measurement professionals can be found at MDH's Radon website. If the seller previously conducted testing in a property at or above 4 pCi/L, the home should be mitigated.

Radon Mitigation Proposal:

Date: 6-26-13

Address: 4180 Lakeridge Road
Excelsior, MN

Reported pre-mitigation radon level: pCi/l 4.4, 5.6

Install an active drain tile depressurization system including all parts and labor as described on page 2 of this proposal.

All E.P.A. standards will be followed.

The system is guaranteed to reduce radon levels below 0 picocuries for a period of five years from the date of installation including all parts and labor.

This guarantee remains with the structure and transfers to future owners without notice.

Liability for this system is limited to the fee paid for the system.

Electronic post mitigation testing will be provided at no additional cost (\$175 value)

It is always recommended that the owner do an independent, follow-up re-test, at their expense.

Any re-testing done must follow all E.P.A. standards.

Total Due: \$ 1,475.00

Full payment is due at the completion of testing unless other arrangements are made in advance.

Although rare, unforeseeable conditions discovered during installation may require modifications to the installation plan which may incur additional charges. Approval of changes will be requested before the installation is completed.

I have read and understand this proposal and authorize the installation of the designed system.

Radon Reduction, Inc.

Address: 4180 Lakeridge Road Excelsior, MN

System Details:

Install 3" PVC pipe system from a suction point located:

Into the cement floor over the drain tile in the northwest corner of the basement.

Through: The rim joist, into the garage, and up into the garage attic over the third garage stall.

With a fan located: In the attic above garage.

Roof: The system will vent through the roof slope over the garage more than 10' from any window.

The existing sump basket cover will be sealed to be airtight.

An attic access will be cut into the garage ceiling and trimmed out for future use.

A licensed electrician to install an outlet within 6' of the fan location paid for by Radon Reduction Inc.

A RP145 is included with this bid. Option: If testing done during installation indicates a larger fan is needed a GP501 will be installed at additional cost of \$100.

Typical annual operating cost for the fans we install range between \$50.00 and \$100.00

Thank you for considering us to mitigate this home.

Radon Test Results Report

Test Address: 4180 Lakeridge Rd. Excelsior, MN 55331

Test Date: 6-27-13 Start time: 10:30am Operator: Jake Vaness

Date: 6-29-13 Stop time: 10:30am Operator: Jake Vaness

Test Length: 48 hours Sun Nuclear Test Unit Service # 2114111

PURPOSE OF THE INSPECTION REPORT:

To provide a professional opinion of a structure's radon levels at the time of the test period, limited to the conditions identified in this report.

AVERAGE RADON LEVEL DURING TEST WAS

*** (0.4 pCi/l) ***

EPA EXPLANATION OF TEST RESULTS:

Radon is the second leading cause of lung cancer, after smoking. The U. S. Environmental Protection Agency (EPA) and the Surgeon General strongly recommend taking further action when the home's radon test results are 4.0 pCi/l (picocuries per liter of air) or greater. Radon levels less than 4.0 pCi/l still pose some risk and in many cases may be reduced. The EPA along with the Minnesota Department of Health further recommends that you consider fixing your home if it has radon levels between 2.0 and 4.0 pCi/l. See the following links to EPA and MN Dept. of Health literature for more information.

EPA: <http://www.epa.gov/radon/pubs/citguide.html#results>

MDH: <http://www.health.state.mn.us/divs/eh/indoorair/radon/radontestresults.html>

The national average indoor radon level is about 1.3 pCi/l while outdoor radon levels average 0.4 pCi/l. The higher the a home's radon level, the greater the risk to you and your family. Smokers and former smokers are especially high risk. EPA recommends that you use an EPA or state-approved contractor trained to fix radon problems. You call your state radon office to obtain information, including a list of EPA or state-approved radon contractors who can fix or can help you develop a plan for fixing the radon problem.

LIMITATIONS OF LIABILITY:

Radon Reduction, Inc. cannot guarantee the necessary conditions were maintained during the test period. There can be uncertainty with any radon measurement due to statistical variations and other factors such as changes in the weather and operation of the dwelling. While we and our agents make every effort to maintain the highest possible quality control and include checks and verification steps in our procedures, we make NO WARRANTY OF ANY KIND, EXPRESSED OR IMPLIED, for the consequences of erroneous test results. Radon Reduction, Inc. nor its employees or agents shall not be liable under any claim, charge or demand, whether in contract, tort, or otherwise, for any and all loss, cost, charge, claim, demand, fee, or expense of any nature or kind arising out of, connected with, resulting from, or sustained as a result of any radon test.

RADON TEST DATA:

Attached to this report is a copy of the actual test taken from the testing device. This test was done with a *Sun Nuclear Model 1027*, an EPA approved testing device. The test was performed in accordance with the current standards and guidelines accepted for radon testing.
